9+ years in frontend | **300+** responsive email templates | **170+** renewal reminder journeys | **45**-component shared library | **7** production client platforms | teams in the UAE, US, Italy and Pakistan

SUMMARY

Senior Software Engineer with 9+ years building web and mobile products with **React, Next.js, TypeScript** and React Native, with backend work in **Node.js** and Firebase on MySQL, PostgreSQL and NoSQL databases. I turn Figma designs into fast, accessible, pixel-perfect interfaces, build reusable component systems, and own features from design to release, including testing, code review and mentoring. At InsuranceMarket.ae I build insurance quote journeys in Next.js and a component-based email system, and I build AI agents and Claude/MCP tooling that automate the team's ClickUp-to-GitHub workflow.

SKILLS

Frontend: React, Next.js (App Router, Server Components, SSR/SSG), TypeScript, JavaScript (ES6+), React Native, Redux, Context API, HTML5, CSS3

Backend and databases: Node.js, REST APIs, Python, Flask, Firebase, MySQL, PostgreSQL, NoSQL databases

UI and styling: Tailwind CSS, Material UI, Ant Design, Bootstrap, Styled Components, design systems, responsive and accessible design (WCAG 2.1)

Testing and quality: Vitest, Jest, React Testing Library, Playwright, Cypress, Core Web Vitals, technical SEO, code splitting, code reviews

Email engineering: Maizzle, responsive and dark-mode HTML email, Liquid, cross-client testing (Gmail, Outlook, Apple Mail), WebEngage, Brevo, Postmark, Bird

AI and automation: Claude Code, Model Context Protocol (MCP), AI agents, multi-agent workflows, LLM API integration, ClickUp and GitHub automation

Other: SharePoint Online (SPFx), Git, GitHub, Figma, Adobe XD, Vercel, Agile/Scrum

EXPERIENCE

Senior Software Engineer, InsuranceMarket.ae

Dec 2025 - Present

Dubai, United Arab Emirates | Insurance comparison platform (car, health, home, life, travel, pet, bike, yacht)

- Build customer-facing insurance comparison and quote journeys with **Next.js, React and TypeScript**, focused on page speed, SEO and a smooth quote-to-purchase flow.
- Authored **300+ responsive email templates** (Maizzle, Tailwind CSS, Liquid) for WebEngage journeys, including **170+ renewal reminders** across Motor, Health, Group Medical, Pet, Cycle, Bike and Yacht insurance.
- Built them on a **shared library of 45 reusable components**, so one design change reaches every journey; tested across Gmail, Outlook and Apple Mail in light and dark mode.
- Keep templates in sync with the live journeys through feature branches and pull requests (**215+ commits** in under a year); deliver through WebEngage, Brevo, Postmark and Bird.
- Built **AI agents with Claude and MCP** that read ClickUp tasks, create GitHub branches and pull requests, post progress updates and keep ticket statuses in sync.
- Created Claude plugins and skills that let designers and analysts prototype emails from the component library and turn designs into production templates with an automated PR.

Senior Software Engineer, PixelEdge Solutions

Feb 2022 - Dec 2025

Northampton, United States (remote) | Software studio for corporate clients

- Led frontend development for large, data-intensive applications for corporate clients, owning architecture, delivery and code quality.
- Built reusable component libraries and coding standards with **React, Next.js, React Native, TypeScript**, Tailwind CSS, Ant Design and Bootstrap.
- Worked with designers on clean interfaces and simple, intuitive interactions; converted complex Figma and Adobe XD designs into pixel-perfect, responsive web and mobile UI.
- Reviewed code, mentored junior developers and coordinated releases with clients and cross-functional teams.

Senior Frontend Engineer (Contract), Proge Software Apr 2023 - Jan 2024
Rome, Italy (remote)

- Built SharePoint Online web parts and extensions with **SPFx, React and TypeScript** for Nestlé Switzerland's enterprise intranet.

Frontend Engineer, Expertizo Jan 2021 - Jan 2022
Karachi, Pakistan

- Built public-facing and internal web and mobile apps with **React, Next.js and React Native** (Tailwind CSS, Bootstrap, Material UI), plus back-end server code.
- Wrote unit tests and ran quality assurance testing to catch defects early and improve usability and release stability.

Full Stack Engineer, Fine Solutions Nov 2019 - Dec 2021
Karachi, Pakistan

- Delivered features with React, React Native, Material UI, Ant Design and Bootstrap on REST APIs and Python/Flask services.
- Tested React components with **Jest**; pair-programmed and reviewed teammates' code to catch missed errors.
- Worked in an Agile/Scrum team: weekly stand-ups, sprint planning and retrospectives, user stories and bugs in GitHub Projects.

Web and Mobile App Developer, Saylani Welfare International Trust Jan 2017 - Oct 2019
Karachi, Pakistan

- Built and maintained front-end code for multiple e-commerce websites with a fast, reliable checkout experience.
- Helped produce and deploy marketing campaigns, including advertisements, using React, React Native, Bootstrap, Material UI and Ant Design.

CLIENT PROJECTS

InsuranceMarket.ae (insurancemarket.ae): UAE insurance comparison platform; quote journeys and the email system behind its customer journeys.

my2cents (my2cents.io): blockchain social network where users tip each other in BSV for their posts.

TreasuryCube (treasurycube.com): treasury platform for currency conversion, transactions and cash management.

UR Audits (uraudits.com): audit and site-inspection platform built on configurable templates, on web and mobile.

DeenConnect (deenconnect.io): community platform connecting Muslims with local masjids and organisations through dedicated portals.

Outlier (outlier.org): online education platform for college courses.

PixelEdge (pixeledge.io): marketing website for a US software development studio.

PORTFOLIO PROJECTS

Insurance Quote Compare (quote-compare-xi.vercel.app): Next.js, TypeScript, React Hook Form, Zod. Multi-step validated quote form; results with URL-synced filters, sorting and side-by-side comparison; accessible, dark mode, Vitest and Playwright tests.

Renewals Analytics Dashboard (data-dashboard-rose-iota.vercel.app): Next.js, TypeScript, Recharts. KPI tiles, charts, sortable and paginated table, URL-based filters, CSV export, mock API route.

Email Template Builder (email-builder-omega-neon.vercel.app): Next.js, TypeScript, dnd-kit. Drag-and-drop blocks, live 600px/375px preview, exports Outlook-safe table-based email HTML.

EDUCATION

Bachelor of Engineering (B.E.), Computer Systems Engineering, Dawood University of Engineering and Technology, Karachi, 2017 - 2020

LANGUAGES

English (professional working proficiency), Urdu (native)
