PROFESSIONAL SUMMARY

Senior Frontend Engineer with 9+ years building web and mobile products with **React, Next.js, TypeScript** and React Native for clients in the UAE, US, Europe and Pakistan. I turn Figma designs into fast, accessible, pixel-perfect interfaces, build reusable component systems, and own features from design to release. At InsuranceMarket.ae I build insurance quote journeys in Next.js and a component-based email system (**300+ responsive templates** on a shared library), and I build AI agents and Claude/MCP tooling that automate the team's ClickUp-to-GitHub workflow.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router, Server Components, SSR/SSG), TypeScript, JavaScript (ES6+), React Native, Redux, Context API, HTML5, CSS3

UI and styling: Tailwind CSS, Material UI, Ant Design, Styled Components, Bootstrap, design systems, responsive and accessible design (WCAG 2.1)

Testing and quality: Vitest, Playwright, Cypress, unit and end-to-end testing, Core Web Vitals, technical SEO, code splitting, code reviews

Email engineering: Maizzle, responsive and dark-mode HTML email, Liquid templating, cross-client testing (Gmail, Outlook, Apple Mail), WebEngage, Brevo, Postmark, Bird

AI and automation: Claude Code, Model Context Protocol (MCP), AI agents and multi-agent workflows, LLM API integration, ClickUp and GitHub automation

Other: REST APIs, Python/Flask, Firebase, SharePoint Online (SPFx), Git, GitHub, Figma, Adobe XD, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Software Engineer | InsuranceMarket.ae **Dec 2025 - Present**

Dubai, United Arab Emirates

- Build customer-facing insurance comparison and quote journeys with **Next.js, React and TypeScript**, focused on page speed, SEO and a smooth quote-to-purchase flow.
- Authored **300+ responsive, component-based email templates** (Maizzle, Tailwind CSS, Liquid) for WebEngage journeys, including **170+ renewal reminders** across Motor, Health, Group Medical, Pet, Cycle, Bike and Yacht insurance.
- Built templates from a **shared library of 45 reusable components** (headers, banners, CTAs, footers), so a design change ships once and reaches every journey; tested across Gmail, Outlook and Apple Mail, light and dark mode.
- Keep templates in sync with the live journeys through feature branches and pull requests to the develop branch (**215+ commits** in under a year), and deliver through WebEngage, Brevo, Postmark and Bird.
- Built **AI agents with Claude and MCP** that read ClickUp tasks, create GitHub branches and pull requests, post progress updates and keep ticket statuses in sync.
- Created Claude plugins and skills that let designers and business analysts prototype emails from the component library and turn designs into production templates with an automated PR for developer review.

Senior Software Engineer | PixelEdge Solutions **Feb 2022 - Dec 2025**

Northampton, United States (remote)

- Led frontend development for large, data-intensive applications for corporate clients, owning architecture, delivery and code quality.
- Built reusable component libraries and coding standards with **React, Next.js, React Native, TypeScript**, Tailwind CSS, Ant Design and Bootstrap.
- Converted complex Figma and Adobe XD designs into pixel-perfect, responsive, performant web and mobile interfaces.
- Reviewed code, mentored junior developers and coordinated releases with clients and cross-functional teams.

Senior Frontend Engineer (Contract) | Proge Software **Apr 2023 - Jan 2024**

Rome, Italy (remote)

- Built SharePoint Online web parts and extensions with **SPFx, React and TypeScript** for Nestlé Switzerland's enterprise intranet.

Frontend Engineer | Expertizo **Jan 2021 - Jan 2022**

Karachi, Pakistan

- Developed public-facing and internal web and mobile apps with **React, Next.js and React Native**; ran QA testing to catch defects early and improve release stability.

Full Stack Engineer | Fine Solutions **Nov 2019 - Dec 2021**

Karachi, Pakistan

- Delivered features with React, React Native, Material UI, Ant Design and Bootstrap, integrated with REST APIs and Python/Flask services, in an Agile/Scrum team.

Web and Mobile App Developer | Saylani Welfare International Trust **Jan 2017 - Oct 2019**

Karachi, Pakistan

- Built and maintained frontends for multiple e-commerce websites with a fast, reliable checkout experience.

SELECTED PROJECTS

Insurance Quote Compare (Next.js, TypeScript, Tailwind, React Hook Form, Zod, Vitest, Playwright): multi-step validated quote form; results with URL-synced filters, sorting and side-by-side comparison; dark mode, accessible. [GITHUB/LIVE LINK]

Renewals Analytics Dashboard (Next.js, TypeScript, Recharts): KPI tiles, charts, sortable and paginated table, URL-based filters, CSV export, mock API route with loading and error states. [GITHUB/LIVE LINK]

Email Template Builder (Next.js, TypeScript, dnd-kit): block-based editor with live 600px/375px preview that exports production table-based email HTML with Outlook (MSO) support. [GITHUB/LIVE LINK]

EDUCATION

Bachelor of Engineering (B.E.), Computer Systems Engineering - Dawood University of Engineering and Technology, Karachi, 2017 - 2020

LANGUAGES

English (professional working proficiency), Urdu (native)
